THREATQUOTIENT ™

THREATQ™ FOR
CHIEF INFORMATION SECURITY OFFICERS

The pressure is on C-level executives to reduce risk, improve defenses and execute on strategic and tactical enterprise goals while staying on budget. ThreatQ™ allows your security operations centers (SOCs), incident response (IR) teams and threat intelligence (TI) analysts to efficiently structure, organize and utilize intelligence across the enterprise. Quickly responding to threats before they cause critical damage to your network and effectively deploying intelligence to your existing infrastructure is crucial. ThreatQ provides the ability to empower your teams to respond immediately to the latest industry threats while providing key performance indicators (KPIs) to demonstrate steady program improvement to key stakeholders and executive management.

ThreatQ was designed to arm your teams with a platform to:

- **Collect, centralize and normalize external and internal threat data**
- **Contextualize threat data, turning it into threat intelligence**
- **Prioritize threat intelligence**
- **Accelerate detection and response to security incidents**
- **Reduce risk and improve security posture**
- **Deploy actionable intelligence to maximize value of existing security infrastructure**

ThreatQ offers your teams the ability to work together in a single platform to quickly access relevant risks, prioritize threats and accelerate time to detection and response.

THREATQ ™

WITH THREATQ, YOUR TEAMS CAN ...

IMPROVE DEFENSES, REDUCE RISK AND EXECUTE ON STRATEGIC GOALS

————

EFFICIENTLY STRUCTURE, ORGANIZE AND UTILIZE THREAT INTELLIGENCE

————

ACCELERATE DETECTION AND RESPONSE

HOW DO YOUR TEAMS BENEFIT FROM THREATQ?

ThreatQ allows your teams to work cohesively as one efficient and effective cybersecurity unit by:

- Automating threat data aggregation
- Arming your teams to accurately prioritize, provide context for and escalate events
- Centralizing threat data and indicator history for rapid processing and look-ups
- Providing a self-tuning threat library to understand relevance and priority
- Empowering your teams with contextual data to speed investigation and response
- Developing and maintaining adversary dossiers
- Streamlining threat data for collaboration across teams
- Accelerating threat detection and response
- Automating prioritization of threats and security incidents
- Simplifying expiration of stale indicators to enhance prioritization and focus
- Fully utilizing existing security infrastructure
- Significantly improving new hire time-to-value

HOW DOES THREATQ STREAMLINE TASKS?

ThreatQ was built to minimize time wasted on tedious and repetitive manual work. It allows you to get more from your existing resources — both people and infrastructure. With ThreatQ:

- Automatically aggregate threat data from multiple internal and external sources
  - No more manual copy and paste
  - View a single source of truth in one location instead of multi-window, third-party indicator review
- Quickly access threat data and context. No more manual lookups from multiple sources
- Utilize threat intelligence with context and validation
- Focus only on important incidents instead of chasing false positives
- Push internal and external intelligence to detection and response tools automatically

THREATQ™

THREAT OPERATIONS AND MANAGEMENT

ThreatQ is the industry's first threat intelligence platform designed to enable threat operations and management. ThreatQ is the only solution with an integrated Threat Library™, Adaptive Workbench™ and Open Exchange™ that help you to act upon the most relevant threats facing your organization and to get more out of your existing security infrastructure.

IMPROVE SITUATIONAL UNDERSTANDING

ACCELERATE DETECTION AND RESPONSE

MAXIMIZE EXISTING SECURITY INVESTMENTS

ADVANCE TEAM COLLABORATION

REDUCE RISK AND BUILD AN EFFECTIVE CYBERSECURITY PRACTICE

Proactively manage threat intelligence to meet the needs of your team. Drive more effective analysis and response while reducing risk.

- Minimize adversary dwell time
- Maintain a laser focus on only relevant and high-priority incidents and data
- Seamlessly integrate with existing security tools to enable a unified defense
- Accelerate detection and response

SAVE TIME AND MONEY

Focus the efforts of your cybersecurity team to reduce risk and efficiently protect your network.

- Remove manual tasks from daily workflows
- Minimize data overload, noise and false positives
- Conduct active threat hunting
- Escalate only true malicious events to the IR team
- Enable your team to be more efficient and effective by working on higher priorities
  - Improve your cybersecurity situational awareness and understanding
ENHANCE YOUR ABILITY TO PROTECT YOUR ENTERPRISE

Correlate all types of threat intelligence, make sense of it and act on it to protect your business.

- Automate aggregation of structured and unstructured data
- Analyze, validate, prioritize and act efficiently with relevant threat intelligence
- Understand threats through context and adversary profiling
- Connect security events, vulnerabilities and detected attacks to relevant aggregated data

CREATE INTELLIGENT CYBERSECURITY PROCESSES

Build strong security processes and cut your response time from weeks to hours.

- Enrich, organize and contextualize data quickly
- Fine-tune your data to meet your team's needs
- Empower analysts with the context to make better decisions
- Easily prioritize data for effective response
- Enable your security infrastructure to take action on relevant threats
- Automatically respond to basic threats

™

FEATURES & BENEFITS

SELF-TUNING THREAT LIBRARY
Eliminate manual data aggregation, correlation and look-ups by utilizing a customizable Threat Library

CUSTOMER-DEFINED PRIORITIZATION
Automatically score and prioritize threat intelligence based on *your* parameters for efficient response

AUTOMATE NEXT STEPS
Automatically block threats in your security devices to ensure that only malicious incidents get escalated to IR

STREAMLINE TEAMWORK
Centralize intelligence sharing, analysis and investigation in a platform all teams can access

OPEN AND TRANSPARENT
Understand context, relevance and priority of all ingested data for enhanced response

ABOUT THREATQUOTIENT™

ThreatQuotient understands that the foundation of intelligence-driven security is people. The company's open and extensible threat intelligence platform, ThreatQ™, empowers defenders to ensure the right threat intelligence is utilized within the right tools, at the right time. Leading global companies are using ThreatQ as the cornerstone of their threat intelligence operations and management system, increasing security effectiveness and efficiency.
